

# RECORD OF POST HARVEST MONITORING

## INSTRUCTIONS:

- Trial sites should be inspected for the presence of prohibited plants at least ONCE EVERY TWO (2) WEEKS during the growing season for the ONE YEAR post harvest period. Growth stages of any prohibited plants must be recorded. The post-harvest period begins on the date of harvest/termination of the trial.
- If any breach of reproductive isolation occurred during performance of the trial, the post-harvest restrictions, including the monitoring requirements for prohibited plants, will apply to the trial site and the spatial isolation area around the trial site.
- During the post-harvest period, if any prohibited plants are permitted to flower within the area under post-harvest restrictions, an additional post-harvest period of one year will be applied. The incident and any corrective action taken should be recorded on a Record of Corrective Action.
- The Record of Post-Harvest Inspection should be retained by the Trial In-Charge and made available to regulatory officials/monitoring committees upon request. Upon completion, a copy of the signed Record of Post-Harvest Inspection should be forwarded to the Permitted Party.
- In the event of a breach of reproductive isolation, the Permitted Party must be notified immediately by telephone and facsimile. The incident and any corrective action taken should be recorded on a Record of Corrective Action.

**PLEASE PRINT CLEARLY**
